OSTROBOTHNIA

Employment Bulletin

June 2016

In June, the number of unemployed jobseekers was 12 034

Unemployed jobseekers' percentage of the workforce by municipality

A total of 12 034 unemployed jobseekers were registered at Employment and Economic Development Office in Ostrobothnia at the end of June. This is 687 more than a year earlier. The number of unemployed jobseekers increased by 1 576 from the previous month. The share of the unemployed jobseekers out of labour force is still the lowest (10,2 %) in the country in the area of the Centre for Economic Development, Transport and the Environment of Ostrobothnia. In the South Ostrobothnia this number is 10,4 % and in the whole country 13,9 %.

Compared with May the share of the unemployed jobseekers of the labour force increased by 1,3 percentage points in the Ostrobothnia and in the whole country.

The figures are from the Employment Service Statistics of the Ministry of Employment and the Economy.

Trends:

- Ostrobothnia has still the lowest unemployment rate in the country, 10,2 %.
- The number of unemployed jobseekers in Ostrobothnia has in June increased most in the country (+6,1 %)
- The number of open vacancies announced in June at the Employment and Economic Development Office was more than the year before.
- The long-term unemployment has still grown.
- The unemployment among men has decreased faster than among women in the beginning of the year.
- The number of people in employment-promoting services has increased compared with the same time the year before.
- Out of the unemployed jobseekers were 1010 persons laid off in full-time.

Information about the website

On this website you will find the latest statistics from ELY Centre for Ostrobothnia's monthly Employment Bulletin. You can access a .pdf version of the current and previous months' Employment Bulletin by following the link on the right. The Employment Bulletin is based on the data from the MEAE's Employment Service Statistics. The Ministry of Economic Affairs and Employment compiles statistics on the clients of the Employment and economic development offices (TE offices), including registered job-seekers, labour market policy services, and job vacancies reported to TE offices by employers. The data is collected from the customer service registry (URA) used by the TE offices. This means that the data used by MEAE Employment Service Statistics is completely registry-based. The statistical data covers all persons, services, and open vacancies in the aforementioned groups, as separately defined in the registry by the classifications and variables for the statistical period in question.

Owing to seasonal variations, the Employment Bulletin always includes a comparison with the corresponding month in the previous year. The descriptors used in the Bulletin are also available in a table format. The Employment Bulletins are published at the end of the subsequent calendar month. The official date of publication is announced in advance.
